

## **streaming keynotes and online workshops**

Due to the Covid pandemic, the planned physical meeting from December 1 to 3, 2021 had to be cancelled.

The partners in this project quickly developed an alternative that consisted of a number of streaming keynotes and online workshops.

The Streaming keynotes are almost all developed by the partners in this project, themselves. The participants in this project watched five of the eight streaming keynotes and completed a questionnaire for each keynote.

The participants were then divided into groups. This layout will also be used during the physical meeting in Verona.

These groups, led by one of the coordinators, held an online workshop in which the completed questionnaires were the basis for further discussion about the streaming keynotes.

The results of these workshops will be reflected in the meeting that will take place in Verona.
